12 JUN 1972

MEMORANDUM FOR: Legislative Counsel

THROUGH : Deputy Director for Support

SUBJECT : OL Comments on Senate Foreign Relations
Committee Report on the Foreign Assistance
Act of 1972

1. The attachment contains the requested comments of this Office on subject report. Comments consist of two paragraphs which address themselves to differences between MASF/MAP funds and procedures. Subsequent paragraphs are keyed to the comments appearing on the "Routing and Record Sheet" from the Legislative Counsel attached to our copy of the report.

2. This Office is only indirectly involved in matters such as here we comment upon. Normally our activities are funded and based on Agency appropriations and, accordingly, we have not directly concerned ourselves with MASF/MAP unique procedures. By virtue of our involvement with and assistance to the Department of Defense in their assumption of logistical support in FY 1973 to all irregulars in Laos, we have acquired some familiarity with the intricacies of foreign assistance. The attachment was prepared by that officer who has been most intimately involved on such matters.
